DEVELOPMENT How Advanced Technologies are helping to meet the challenges? Abstract Landing gear is one of the critical subsystems of an aircraft. Wed, 19 Dec 2018 02:10:00 GMT Aircraft Landing Gear Design & Development - Infosys - Richard Smyth Design and Development of Transport Aircraft Systems RAeS, DGLR, VDI, HAW Hamburg Mon, 14 Jan 2019 11:12:00 GMT Richard Smyth - HAW Hamburg - Besides design aspects such as the a/c capacity and range, the development of new technologies is mandatory to minimize or even eliminate the width of the gap, thus ensuring the achievement of future market demands by new aircraft designs. Aircraft design and development - ScienceDirect - aircraft development and series production. This has led to a high industrial specialization, with local processes sometimes, which have had recently to be harmonized to a wide extent. 1.2 Development costs and design processes When developing a new product, the well-known comparison of the costs committed by the definition progress versus actual costs at any time clearly shows the necessity ...
