Sun, 10 Feb 2019 19:58:00 GMT Equipotential and Electric Field Mapping - Electric Field Mapping { Laboratory Worksheet Page 6 of 6 Analysis C-2: Along the central axis from the negative electrode to the positive, the electric field should follow a straight line, although it is not constant in magnitude. Sat, 09 Feb 2019 13:11:00 GMT Electric Field Mapping (Laboratory Worksheet) - The electric field mapping apparatus is designed so that the resistive board is mounted on the bottom (see Fig. 2). 2. General Physics II Lab: Electric Field Mapping Remove the two leads from the battery terminals of the resistive board if they are attached. Hold the mapping board by two diagonal corners and turn it over so that the legs jut upward and the resistors can be seen. (If you hold the ... Manual 32 Experiment 6 Electric Field Mapping "I hear and I forget. I see and I remember. I do and I understand" Anonymous OBJECTIVE To visualize some electrostatic potentials and fields. THEORY Our goal is to explore the electric potential in the region of space around some conductors of specified shape, which are held at specified potentials by batteries or some such ... Fri, 08 Feb 2019 16:26:00 GMT Experiment 6 Electric Field Mapping - Rice University - Experiment 1: Equipotential Lines and Electric Fields OBJECTIVES 1. To develop an understanding of electric potential and electric fields 2. To better understand the relationship between equipotentials and electric fields 3. To become familiar with the effect of conductors on equipotentials and E fields PRE-LAB READING INTRODUCTION Thus far in class we have talked about fields, both ... Experiment 1: Equipotential Lines and Electric Fields - Results. The electric field lines produced in this lab curved as they traveled from the positive to the negative charge. This indicates that the electric field has a curved shape because of the two point charges. The following electric field map shows how the electric field flowed. This map shows that the electric field curves as it travels between the
