GMT elementary  
intermediate algebra 3rd  
edition pdf - In linear  
algebra, an eigenvector or  
characteristic vector of a  
linear transformation is a  
non-zero vector that  
changes by only a scalar  
factor when that linear  
transformation is applied to  
it. Eigenvalues and  
eigenvectors - Wikipedia -  
Mathematical economics is  
the application of  
mathematical methods to  
represent theories and  
analyze problems in  
economics. By convention,  
these applied methods are  
beyond simple geometry,  
such as differential and  
integral calculus, difference  
and differential equations,  
matrix algebra,  
mathematical programming,  
and other computational  
methods. Mathematical  
economics - Wikipedia -
